

# Future skills for a better life in Sustainable Salons

## Scope of the project

SCHIPHOL-RIJK, THE NETHERLANDS

Frank den Hartog

Eva Bouwman

# Rationale

In the project we gather facts through an inventory of the hairdresser's competencies in 2030, the desired situation in a sustainable salon focus on environmental aspects (core of a simple standard), competences needed to reach this situation and research on two diagnostic self-assessment tools to map the current situation on:

1. competence level and measuring the gap on profile and future competences and
2. the gap of the level towards the sustainability system on environment and sustainability in schools (salon).

The outcomes of the inventory we will discuss with experts and the results are later on the input for developing the self-assessment tools, the learning material on environment in a sustainable salon and awareness material on sustainability.

# Program Meeting January 2021

Introduction partners

Scope of the project

Workshops/presentations

Dissimination and Impact

Administration

Tasks in the coming period

# Workshops Kick-off meeting

## 3 Workshops:

1. Future profiles, entrepreneurial and hairdressers competences and future trends-UBK-EL Palo;
2. Method defining a standard/sustainability label for the hair salon-Stivako;
3. Idea's on developing learning material on sustainability and environmental aspects in the sustainable salon- ROC Amsterdam.

Prepare the inventory (research) on developments in the sector focussed on: status VET education in EU and partner countries on entrepreneurship, sustainability, technology;

Existing learning material; Company profiles & competences; Consequences developments on future profiles? UBK-Stivako.

# Questions/remarks

Thanks, we see each other live in Schiphol-Rijk in January 2021
