

RICHTPUNT CAMPUS
OUDENAARDE

Belgium

*Our institute is part of the provincial schools of the province of East Flanders.
The education we give is based upon pluralism, quality and affordability.
We offer fulltime regular education, but also dual learning, where students have a combination
of learning in school and in the hair salon.
After 6 years of secondary school, students can choose to do a year of specialization in
barbering or styling and image.
There's also an opportunity to become a beautician within a full schoolyear.
We guarantee an inspiring and motivating, learning, living and working space for our students
as well as for our teachers. Every day we search for their inner talents and stimulate and
motivate them to adore their chosen profession.*

*Our mission is to educate young people in order to become
future hairdressers and beauticians with passion for
hairdressing and care for beauty.
To become youngsters ready for society and the job market.*
