

Press release 3: 24-04-2021 Future skills for a better life in Sustainable Salons.

On the 20<sup>th</sup> of April an interim online project meeting took place. Due to the COVID19 crisis was this meeting also online. In this Erasmus+ project, we gather facts through an inventory of the hairdresser's competencies in 2030, the desired situation in a sustainable salon and focus on environmental aspects (core of a simple standard), competences needed to reach this situation. In this meeting we discussed the progress of the research into the status of environmental aspects in the sustainable salon, both the design of the questionnaire and the preliminary first results of the partners in the various participating countries. In addition, the progress in research into the set-up of a simple certification system was discussed.

The participating organizations:

- Camera Italiana Della Acconciatura, Italy;
- Febelhair.org, Belgium;
- Instituto de Educación Secundaria El Palo, Spain;
- Regionaal Opleidingscentrum (ROC) Amsterdam, The Netherlands;
- IES Num 1 Universidad Laboral Malaga, Spain;
- Richtpunt campus Oudenaarde, Belgium;
- IOFS-FP Lombardia, Italy.
- Stivako, project coordinator, The Netherlands
